

TENTATIVE DATASHEET DYNAMIC COLOUR LIGHTSPOT

INVISUA MASTERSPOT 2 family

TYPICAL APPLICATION

The Invisua Masterspot 2 family is designed for use in retail and hospitality applications to provide adjustable or dynamic lighting.

The Invisua Masterspot fixtures provides high-quality white and coloured light from a single luminaire, allowing for perfect illumination of products and spaces, or adding theatrical or dramatic lighting effects to set a specific mood or atmosphere.

The integrated zoom optics allows for adjustment of the beam angle to match the requirements of each application.

The Invisua Masterspot products are wirelessly controlled via the proprietary Invisua ChromaMesh network. This makes it possible to add the fixtures to an existing installation without requiring any changes to the infrastructure. The user-interface is designed to be used without any technical knowledge.

More information can be found at www.invisua.com

FEATURES AND BENEFITS

Feature	Benefit
High-quality white light <ul style="list-style-type: none"> • High CRI whites • Adjustable colour temperature 	Highlight the quality of the illuminated products <ul style="list-style-type: none"> • Higher perceived value • Optimal customer experience
Dynamic and coloured light <ul style="list-style-type: none"> • Soft pastels • Saturated colors 	Attract more attention <ul style="list-style-type: none"> • Create Stopping power • More theatrical displays
Wireless Control <ul style="list-style-type: none"> • Initiative control with smartphone, tablet or computer • Web-based access 	Easy to control – Flexible <ul style="list-style-type: none"> • Monitor and adjust colour • Control from anywhere
Global-track compatible <ul style="list-style-type: none"> • No data track • No extra cabling needed 	Plug-and-play installation <ul style="list-style-type: none"> • Cost efficient • Add to existing infrastructure
Adjustable beam width <ul style="list-style-type: none"> • Change beam angle from 12 to 24° 	Adapt lighting to changing settings <ul style="list-style-type: none"> • No need to choose beam-width up front
Long lifetime <ul style="list-style-type: none"> • Quality components • Designed and manufactured in the Netherlands 	Durable solution <ul style="list-style-type: none"> • No need for extra fixtures or filters • No need to replace fixtures for different beam width
Easy control with #gofilter software <ul style="list-style-type: none"> • No technical knowledge required • No software to be installed 	Easily create shows <ul style="list-style-type: none"> • Adjust the lighting within seconds • Schedule shows at different times

DESCRIPTION

The Invisua Masterspot 2 with dynamic lighting is an easy retrofit for retail and hospitality track fixtures.

The Invisua Masterspot connects to the Invisua ChromaMesh network for easy control and management of the luminaires.

Dynamic light scenes can be made with the Invisua #gofilter web-based application.

Each fixture is individually calibrated to ensure high quality colour over the life of the product.

The light output and colour of each fixture can be accurately controlled within a large gamut and allows for dimming down to 0.1%. Integrated zoom optics allows for adjustment of the beam angle from 12° to 24°.

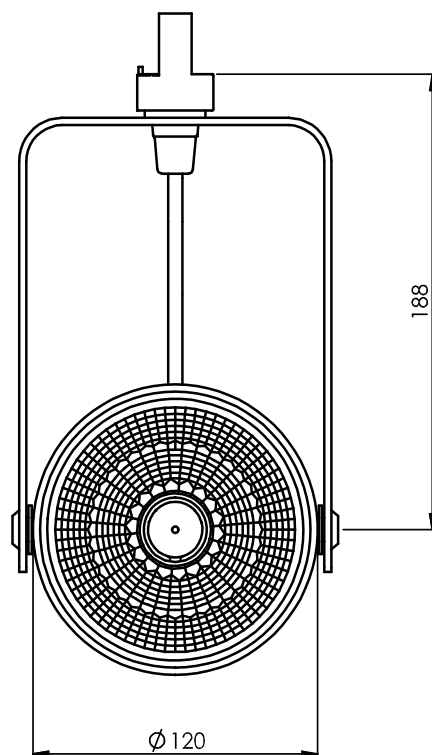

TECHNICAL DATA

Dimensions in mm

Specification	Min	Typ	Max	Unit
Power consumption			96	W
Voltage input	90	230	250	VAC
Power factor	0.95	0.99		
Frequency		50/60		Hz
Colour temperature	1000		12500	K CCT
Colour rendering index (3000K)	90	93		
R9 (3000K)	50	89		
Beam angle	12	Adjustable	24	Degree
Dimming Range	0.10		100	%
Visual comfort			13	UGR<13
Ambient Operating Temp.	-10		+35	°C
Lifetime	50000			hours
Lumen maintenance		L70B50 @ 50000hrs		
Ingress Protection		IP20		
Cable length (Pendant)		3 m		
Weight		2.3 kgs		

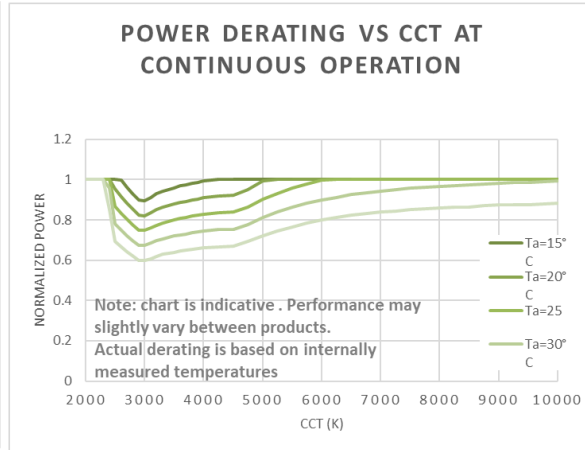

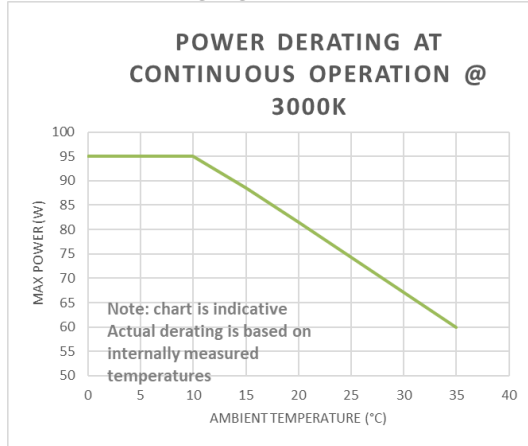

Mounting versions

Model	Mounting type
MS2-PD-LON-xx40-rr	Pendant, 3m cable with hook, open wire ends
MS2-TR-LON-xx40-rr	Global Trac track adapter for 3 circuit Global Trac
MS2-TR-JPN-xx40-rr	Japan-compatible track adapter

CERTIFICATIONS

SAFETY

Before installation read the installation manual carefully.

Installation is only authorized to trained professionals.

Make sure that everyone working with the product during installation is known with the content of the installation manual.

PROTECTIONS

The LED luminaires contain a sophisticated over-temperature protection. In case of a high ambient temperature the luminaire automatically dims to a lower light output.

MAINTENANCE

Maintenance is not needed throughout the lifetime of the product, except cleaning and safety inspection of the product.

Information in this document is property of Invisua and shall not be used without written permission of Invisua.

The information given might be subject to change without prior warning.
